

"Undiscovered Psalm"

By Johnna Crider

Traffic flows  
To the heart  
Emotions gathered  
Hand signals  
Mimed  
Sound captured by  
Sight  
Ever-changing  
Blue eyes  
Darkening thunderheads  
To skies of teal  
Cobalt expanse  
Haze that I  
Cannot reach through  
Though I try  
Intonation  
Speak to me  
My name  
Call to me  
See my name  
Form upon your  
Lips  
Fantasize  
About a voice  
Calling my name  
Dance  
Piano mingled  
With drum and bass  
Focused only on you  
Lost sense of  
Individuality  
So I rediscover it  
Another psalm  
Taste the  
Electromagnetism  
Of my kiss  
Fleeting intentions  
Escape your mind  
Corporeal effects  
Flicker inside my mind  
Only to stop time  
Restarted in existence

Fourteen hundred feet  
Above mental state  
Of mind
